My Summary

Hi, my name is Recep. I am a 20-year-old student at Dokuz Eylul University in the second class. I can tell that computer programming is my dream job. I'm into coding and love to code something in my free time; when I was in high school, I started coding and tried to develop a game a few times; I just spent so much effort on it.
I love solving problems. I'm a fast learner.
I'm looking to join a software company and am willing to work.

Education

High School 2015 – 2019
Bandirma Kavram Temel High School

University 2020 – 2022
İzmir Dokuz Eylul University (Computer Programming)
